

Skyline College received a request from Laura Metune, Vice Chancellor of Government Relations from the California Community College State Chancellor's Office to host a legislative staff site visit. Skyline College is at the top of the list of colleges the team plans to visit due to its progress in the areas of the Promise Scholars Program, Guided Pathways and AB705.

## Areas of Discussion

- Promise/ASAP (including innovation award program)
- Guided Pathways
- Strong Workforce Program
- AB 705 Implementation

## Participants

- Approximately 20-25 people
- 2-4 CCCCCO Staff
- 2-4 Foundation Success Center Staff
- 15-20 Key Legislative Staff, Legislative Analysts' Office, Governor's Office, Department of Finance

## Background on Format

The Chancellor's Office indicated they make the commitment to legislative staff that these visits are about seeing how our colleges really work; we will show them the "good, bad and ugly" of systems reforms. These visits are about exposing state-level policy makers to what works and what doesn't work across the colleges. The agenda usually consists of a series of group meetings, which are organized around the discussion topics. The team would like to hear a short presentation from the college, and then enjoy an open conversation. The team likes to have time to speak with students, and its always key to meet with the President and leadership team.

# Legislative Site Visit

Wednesday, October 16, 2019 | 8:00 a.m. - 3:00 p.m.
