MATH 251 AB & AH	**<u>Calculus</u>**	Instructor: Rick Hough
MTWTh 12:10-1:15		Phone#: 738-4193

<u>Text:</u>   *Calculus; Single and Multivariable, 3ʳᵈ Edition,* by Hughes-Hallett, Gleason, McCallum et al. We will cover chapters 1 through 5, and a little bit of 6. A TI-83 graphing calculator is required for the course.

<u>Office:</u>   My office is right next door to the MESA Center in 7207A. I plan to hold office hours right before class (and after if you have a question that gets unanswered in class). Also, I plan to hold additional office hours MWF from 9:10 – 10:00. If you need to see me at some other time, please feel free to drop in or make an appointment.

<u>Attendance:</u>   Attendance on time is expected and required. If you know you will be absent, tell me before hand and get the assignment or call one of your classmates. Falling behind in a math class just doesn't work. Irregular attendance is grounds for being dropped.

<u>Homework:</u>   The only way to learn math is to practice. The tentative homework assignment sheet gives the problems that I would like you to work on. The homework will be submitted to me each period following the day we finish that section. The homework and quizzes together will count for 15% of your grade.

<u>Quizzes:</u>   We will have a quiz on recent and new material about once a week. Most quizzes will be "group" quizzes and will count as much as 4 or 5 homework assignments. There will be no make-up quizzes. The homework and quizzes together will count for 15% of your grade.

<u>Exams:</u>   There will be approximately 5 exams, one at the end of each chapter. There will be no makeup exams, but your lowest score will be worth half of the other exams. Exams will count for 65% of your grade.

<u>Final:</u>   The final exam will be given on Wednesday, May 21, 11:10 – 1:40. The final is cumulative and will count for 20% of your grade.

<u>Grading:</u>   To get a C in this class, you MUST have a C average on the exams and the final. The homework and quiz grade will not enable a student to pass who has not passed the exams. All letter grades will be determined by the following standard grading curve:

$$90\% \; \text{-------------------}> A$$
$$80\% \; but < 90\% \; \text{------}> B$$
$$70\% \; but < 80\% \; \text{------}> C$$
$$60\% \; but < 70\% \; \text{------}> D$$
$$< 60\% \; \text{-------------------}> F$$

<u>Dates:</u>

Jan 24 - - - - - - - - - - -> last day to drop with a partial refund

Feb 7 - - - - - - - - - - -> last day to drop without it appearing on your record

Apr 23 - - - - - - - - - - -> last day to withdraw

May 21 - - - - - - - - - -> final exam
