Blues Scale In A

The F Chord

For this chord the index finger will do what is called a $\frac{1}{2}$ barre. It will play the notes on the 1st and 2nd string. The key to this is to play in such a way that the 1st finger holds down the notes on the 1st and 2nd strings. You should play slightly off of the side of the index finger. Do not play the 5th or 6th strings.

This chord will take some time to master. Take your time and just work on it slowly. Don't worry if at first you don't get all the notes clear. That will come with time.

Start by playing the following:

4/4 ||: C | | F | | :||

4/4 ||: C | F | C | F :||

See how the E with 2nd, 3rd and 4th fingers is just moved up 1 fret then barre the 1st fret and you have a F chord. This is the E form of CAGED.

House of the Rising Sun

She sewed my new blue jeans

My father was a gambling man

Down in New Orleans

And the only things a gambler needs

Is a suitcase and a trunk

And the only time he's satisfied

Is when he's all a-drunk

Arpeggio fingerpicking

- Arpeggio means “broken chord”. An arpeggio is just playing the chord as individual notes. There are many different arpeggios that can be played.
- We will start with a simple one. But first must review the correct right hand position.

Correct Picking Hand Position.

- The right hand position is important in order to get not only a good tone but to play progressively more difficult pieces.
- If you are right handed the thumb needs to be in front of the other fingers (to the left). Have it ready to hit the lower pitched strings (4, 5 and 6).
- The fingers should be curved and touching each other. They should be ready to hit the following (index ready to hit the 3rd string, middle finger the 2nd string and ring finger the first string).

The Rest Stroke

- For the bass you should do the rest stroke.
- How it works is that when you hit a note with the thumb you will follow through and rest or stop on the next string.
- This gives you the fullest sound.

The 2/4 or 4/4 basic pattern

- Each of the following get $\frac{1}{2}$ of a beat.

Count What you play

- 1 Thumb hits the 5th string
- & Index finger plays the 3rd string
- 2 Middle finger plays the 2nd string
- & Ring finger plays the 1st string.

You would do this 2 times for 4/4 time.

Count What you play

- 1 Thumb hits the 5th string
- & Index finger plays the 3rd string
- 2 Middle finger plays the 2nd string
- & Ring finger plays the 1st string.
- 3 Thumb hits the 5th string
- & Index finger plays the 3rd string
- 4 Middle finger plays the 2nd string
- & Ring finger plays the 1st string.

Be sure to count while you play.
Each of these is played on an
Am chord. Only the bass notes
change when you change chords

Try it to the song above. Take it very slowly. Bass notes change as follows:

G 6th string
A7 5th string
D 4th string

The other fingers still play just the 1st, 2nd and 3rd strings!!!

Basic Arpeggio for $\frac{3}{4}$ Time

Alternating Bass Fingerpicking

- The most common type of fingerpicking patterns done in American Folk Music is called Travis Picking but a better and more accurate term is alternate bass picking.
- This is a type of picking that has been developed that closely resembles ragtime or stride piano. The essence of this is the alternating bass played with the thumb on guitar or with the left hand on the piano.

- Listen to compositions by such people as Scott Joplin to get an idea of where this style came from. First with pattern picking and then with specific arrangements. Such players as Leo Kottke, Doc Watson, Chet Atkins, Paul McCartney, Jimmy Page and others use this style. Listen to them to get a feel for what you should be doing.
- In addition to alternating bass patterns another common pattern type that is done is "arpeggio" styles or "broken chord" patterns.

Picking hand position

- Your fingers should all be curved at each joint.
- Thumb should be to the left of your fingers (right handed people) and to the right of your fingers if you play left handed.

Thumb

- The thumb will do the rest stroke on most American styles of finger-picking.
- To do this you will strike the string in a downward motion and the thumb will come to rest on the next string. For example, if you played the 5th string your thumb would end up resting on the top of the 4th string.

- For the Bass you will always use your thumb with the "rest" stroke. For example, to strike the 5th string hit the 5th string in a downward motion and follow through and stop with your thumb resting on the 4th string. Your thumb will then make a small circle to come into position for the next note. You should use a little of the fleshy part of the thumb and the nail.
- Again keep your thumb to the left of the fingers!

Alternating Bass – First Step

Do the following to any A type chord (Am, A7, A etc.)

Count	What you do
1	Thumb hits the 5th string
2	Thumb hits the 4th string
3	Thumb hits the 5th string
4	Thumb hits the 4th string

Keep the pattern going

- The bass notes change as you change chords while the strings played with the first and second fingers many times remain the same.
- Once you have mastered the bass notes then you need to move on to adding the rest of your fingers into the patterns.
- Usually with this pattern you will use only your index and middle fingers. That is why this style is many times called “two finger fingerpicking”.

Chord and bass notes

Chord	Bass	Alternate
A, Am, A7	5	4 or 6
B7, Bm	5	4 or 6
C, C7	5	4
D, Dm, D7	4	3 or 5
E, Em, E7	6	4 or 5
F	4	3
G	6	4

The Fingers – Free Stroke

- The stroke for your other fingers is called the "Free Stroke" and is done by striking the string with the finger in the following manner. Let's assume that you are hitting the 2nd string with your index finger.
 - The index finger will be just below the second string and actually just hook the string and bring the index finger upward toward the palm of your hand. It should not touch the other strings.
 - Again like the thumb you should make a small circle to bring it back to where it can strike the next note. This movement is very small and your index finger moves only about an inch total.
 - It is important to note that you do not bring it all the way until it touches the palm.
 - Also keep your fingers touching each other as you do this.

Let's try the first fingerpicking on Am

- | Count | What you play |
|-------|--|
| 1 | Thumb plays the 5 th string |
| & | Middle finger plays the 1 st string |
| 2 | Thumb plays the 4 th string |
| & | Index finger plays the 2 nd string |
| 3 | Thumb plays the 5 th string |
| & | Middle finger plays the 1 st string |
| 4 | Thumb plays the 4 th string |
| & | Index finger plays the 2 nd string |

When you change chords only the thumb will change what it plays

With A D or D7 chord:

- | Count | What you play |
|-------|--|
| 1 | Thumb plays the 4 th string |
| & | Middle finger plays the 1 st string |
| 2 | Thumb plays the 3 th string |
| & | Index finger plays the 2 nd string |
| 3 | Thumb plays the 4 th string |
| & | Middle finger plays the 1 st string |
| 4 | Thumb plays the 3 th string |
| & | Index finger plays the 2 nd string |

For an E, E7, Em, G or G7 Chord

- | Count | What you play |
|-------|--|
| 1 | Thumb plays the 6 th string |
| & | Middle finger plays the 1 st string |
| 2 | Thumb plays the 4 th string |
| & | Index finger plays the 2 nd string |
| 3 | Thumb plays the 6 th string |
| & | Middle finger plays the 1 st string |
| 4 | Thumb plays the 4 th string |
| & | Index finger plays the 2 nd string |

Strum #2

F. Markovich

The image displays musical notation for a guitar piece titled "Strum #2" by F. Markovich. It consists of two staves: a standard musical staff and a guitar TAB staff. The musical staff is in the key of C major (one sharp) and 4/4 time. It shows a sequence of chords and strums: a C chord (1), a syncopated strum (2), a syncopated strum with an accent (& 3), a syncopated strum with an accent (&), a C chord (4), and a syncopated strum with an accent (&). The guitar TAB staff shows the fret numbers for each string: 0, 1, 2, 3 for the strings from top to bottom. The notation includes a treble clef, a key signature of one sharp, and a 4/4 time signature. The guitar staff is labeled "Guitar" and the TAB staff is labeled "Guitar TAB".

This is an example of a syncopated strum.

8 Days a week

Introduction and ending for 8 Days a Week.

A letter then a slash then a letter means:

First letter is name of the chord.

Slash indicates that the next letter is the bass of the chord.

So E/D would be an E chord with a D note as the bass or lowest note.

The introduction to 8 Days a Week is:

4/4 ||: D | E/D | G/D | D :||

Notice that the same fingering applies to many chords.

D

E/D (E with a D Bass)

G/D (G with a D bass)

Same for Guitar 2. Leave 1st and 4th string open as drones.

Timbre (tonal) differences

- Notice the difference in sound when you play close to the bridge compared to over the sound hole on your guitar.
- The reason is that when you play over the bridge the overtones are sounding louder and the fundamental (note you play) are softer in volume.
- Overtones are the multiples of the fundamental tone. For example, if you played an A = 440 Hz. Then the overtones would be 880 (2X), 1320 (3X), 1760 (4X), 2200 (5X) etc.
- The closer you play to the bridge the louder those overtones sound and the softer the fundamental sounds.
- For 8 Days a week play over the sound hole until you get to the section starting with an A chord (bridge of the song) then play near the bridge, on the repeat go back to playing over the sound hole.

Strum over the sound hole of the guitar.

Boulevard of Broken Dreams

Em G D A Em
I walk a lonely road the only one that I have ever known
Em G D A Em
Don't know where it goes but it's home to me and I walk alone
Em G D A Em
I walk this empty street on the boulevard of broken dreams
Em G D A Em
Where the city sleeps and I'm the only one and I walk alone

I'm walking down the line that divides me somewhere in my mind
On the border line of the edge and where I walk alone
Read between the lines what's fucked up and everything's alright
Check my vital signs to know I'm still alive and I walk alone

C G D A
My shadow's the only one that walks beside me,
C G D A
My shallow heart's the only thing that's beating
C G D A
Sometimes I wish someone out there will find me
C G B7
Till then I walk alone

Notice the pedal point in holding down the 1st 2 strings. Fingering for all the chords is to use your ring finger on the 2nd string and pinky on the 1st string. Other fingers are obvious once you do that.

For Guitar 1 you can play the basic chords of G, Em and Am.

Other chords are all beginning chords. This song should be played in 1st position chords not up the neck.

Basic rhythm

G

The image shows a musical staff in G major (one sharp) and 4/4 time. The chord is G major (G-B-D). The rhythm consists of a series of eighth notes: G, B, D, G, B, D, G, B, D, G, B, D, G, B, D, G, B, D. The notes are grouped into pairs of eighth notes, with a bar line after the eighth measure. The notes are written as eighth notes with stems pointing up.

Same rhythm but now picking out individual notes. Do not have to be exact on this and in fact a little loose is good.

This will be for Guitar II students only!

Don't worry about the strings you hit, just get the basic idea that you don't play all of them at the same time.

A small bit of analysis shows that Beat one is the entire chord. Let it ring out and don't stop any notes. It actually sounds throughout the measure. Notice how beats 1 and 3 are really strong! Then the rhythm pattern.

Example #4

The image displays a musical score for a guitar piece. The top staff is a treble clef with a key signature of one sharp (F#). The piece is divided into two measures. The first measure is labeled **Em7** and contains a sequence of chords: Em7, Em7, Em7, and a melodic line. The second measure is labeled **A7sus4** and contains a sequence of chords: A7sus4, A7sus4, A7sus4, and a melodic line. The third measure is labeled **A7** and contains a sequence of chords: A7, A7, A7, and a melodic line. The final chord in the third measure is annotated with a curved arrow pointing to the E string and the text "slight pull on E string".

Below the staff is a guitar fretboard diagram with six strings labeled T, A, B, and E from top to bottom. The diagram shows the following fret numbers for each string:

String	Measure 1	Measure 2
T	3, 3, 3, 3	3, 3, 3, 3, 3, 3
A	0, 0, 0, 0	2, 2, 2, 2, 2, 2
B	2, 2, 2, 2, 2, 0	2, 2, 2, 2, 2, 2
E	2, 2	0, 0

The diagram also includes a curved arrow pointing to the E string in the second measure with the number "3" above it, indicating a triplet or a specific fretting technique.

VERSE 2

Beware of pretty faces that you'll find.
A pretty face can hide an evil mind.
And be careful what you say, you'll give yourself away.
Odds are you won't live to see tomorrow.

REFRAIN

Secret Agent Man, Secret Agent Man -
They've givin' you a number and takin' away your name.

VERSE 3

Living on the Riviera one day,
And then layin' in a Bombay alley on the next day.
I know you let the wrong word slip by kissing persuasive
lips;
Odds are you won't live to see tomorrow.

REFRAIN

Secret Agent Man, Secret Agent Man -
They've givin' you a number and takin' away your name.

[A7] How's about cookin' [D7] somethin' up with [G] me.

I'm free and ready so we can go steady

How's about savin' all your time for me

No more lookin', I know I've been (*tooken)

How's about keepin' steady company.

I'm gonna throw my date book over the fence

And find me one for five or ten cents.

I'll keep it 'til it's covered with age

'Cause I'm writin' your name down on ev'ry page.

Say Hey, Good Lookin', whatcha got cookin'

How's about cookin' somethin' up with me.
