

Homework Grading Policy

For full credit all of the following must be included:

- Start each new section on the top of a new page
- Write your name on the top right of the first page
- Only one column of work per page (not side by side problems)
- Label the section and problem numbers on the top middle of the page the section starts.
- Make your work neat and clear so that I can read it. Use a straight edge for graphs.
- Problems must have the correct answers and all work must be shown
- Box or highlight your final answer.
- All written homework assignments are due on exam day before the exam starts.

Sample Written Homework

Upper right hand corner
First and last name

Top line (middle)
Section number and problem numbers worked on that page

Body of paper
Problem number clearly labeled; information for problem written out neatly. You do not need to include the question prompt.

Underneath problem statement
All steps shown; always include appropriate diagrams

Tips For Doing Homework

- Dedicate time daily to work on this class
- Keep all homework for this class in a notebook
- You will get more out of doing your homework if you work on it in many short sessions as opposed to fewer long sessions
