

Lesson Structure

Math 130 Online

Online homework is found in MyOpenMath and is graded electronically. All assignments have due dates but it is a good idea to work ahead. Each online homework completed 24 hours early will receive 2 extra percentage points. The work must have a score of 100% and the maximum overall percentage of online work will not exceed 105%. Forum assignments are located in the Forum tab on MyOpenMath and are graded. Extra credit will also be given for helping students on the General Forum.

You may repeat online homework as many times as you like until the deadline. If you procrastinate then you run the risk of not being able to complete the assignment. If you feel that MyOpenMath is not recording your answer correctly post on the forum with an explanation.

Written homework is in the text book and is due the Friday before exam days but in order to be successful in this class it is best to do homework daily. The assignments are on the Unit Checklist. Do not wait until the last minute to do your homework; it does not work. Follow the structure found on the Homework Grading Policy document. Plan on spending 9 to 12 hours per week.

This course consists of 4 units:

- Unit 1: Chapter 5
- Unit 2: Chapter 6
- Unit 3: Chapter 7, 8.2
- Unit 4: Chapter 8.1, 8.3

Typical Unit Tasks

- Download the Unit Checklist to guide you through the tasks for the unit
- Watch the video lesson found on MyOpenMath
- Use the Forum to ask questions and make comments about the material
- Attend the Virtual Classroom sessions
- Do the online homework and use the tutorials if you need help
- Complete the written homework from the text book
- Read the Exam Review found on the MyOpenMath
- Attend the Exam Review session during zoom office hours
- Keep a positive attitude!
