

Math 200 Online
Elementary Probability and Statistics
Welcome Letter

Dear Student,

Welcome to Math 200 Online! This letter will give you an overview of the course to help you decide if an online learning format is right for you. Please do not hesitate to contact me if you have any questions.

Is Online Math For You?

Online math is an exciting new offering at Skyline College. Online classes are appealing because they are often more convenient than on-campus classes, especially for students with busy schedules. Successful online students are self-motivated, independent, organized learners. You can see if you are a candidate for online learning by taking the self-assessment at:

http://smccd.edu/degateway/self_assessment.php

Getting Started:

1. Register for the course on Websmart <https://websmart.smccd.edu/> then go to my website <http://www.smccd.edu/accounts/moss/> and there you will find all the course details including the syllabus, schedule, homework assignments, homework guidelines, MyOpenMath navigation, and letters from past students.
2. Complete the mandatory online orientation by June 12. The orientation information is on my website and will be available June 10.
3. MyOpenMath login information will be given to you after completion of the orientation. Technical support for Canvas can be found at <http://www.skylinecollege.edu/onlineeducation/>

Course Overview:

This course uses several online multimedia tools using MyOpenMath with access through Canvas. See the syllabus for detailed course content and Student Learning Outcomes. Course material will consist of textbook, video lectures, and lecture notes. The book can be downloaded from my webpage or purchased on [Lulu](#) for \$12.19. I will be available by email, phone, discussion board, and virtual classroom sessions. Free tutoring is offered on-campus in [The Learning Center](#).

Course Pace

This course starts on June 12 and ends on July 27. Expect to spend about 24 hours per week. There will be two proctored exams. The exam dates are July 6 and July 27. See the syllabus for time and location. If you have a scheduling conflict or cannot come to campus, you can take the exams at a different location. See the syllabus for more information.

Please contact me if you have any questions.

I look forward to meeting you!

Professor Moss
