ASSIGNMENTS:

This course will require at least 5 hours of preparation time per class. Time management is essential. You cannot afford to fall behind in assignments; catching up is extremely difficult. If you find that you cannot master the material in this amount of time, go to the accounting lab immediately for help on how to study more efficiently. Just doing your homework in the lab can be a time saver in that you may ask questions when you are stuck.

Although only selected exercises and problems have been assigned, you should work as many additional exercises and problems as you can. Solutions for extra problems are on the instructor's website. The password is **ACTG131**.

Homework counts for 10% of the course grade (5% connect homework and 5% class homework). Read each chapter and review the questions before proceeding to the exercises and problems. If you feel uncertain about how to do an assignment, you can look at the illustrations in the chapter and follow the format, check solutions to problems not assigned, ask for help in the accounting lab.

You are expected to have completed the assignment before class. Homework will be checked for credit daily. Late homework will not be accepted. If you cannot come to class, send your work with another student or you may email to instructor. Late homework is not accepted for credit. If you arrive late to class, see me after class to make sure that you get partial credit for the assignment. You will have two homework assignments per chapter. Half of your homework will be in class and the remainder of the assignment will be on connect.

Go to the accounting lab and sign up for a scheduled weekly lab session. David Hall is the lab tutor. A **separate syllabus** for lab assignments is on the last page of this document. Your lab points will count for 5% of your grade in ACTG 131. Failure to complete these assignments will harm your grade. You **MUST** weekly sign in with the attendance computer in the lab (this cannot be done during scheduled class time).

Success in this accounting course is dependent upon regular attendance, participation, and the completion of assigned homework. You may use the accounting lab for working on assignments or getting tutorial help whenever the lab is open in addition to your regularly assigned lab hour.

The accounting lab contains computers for your use. An accounting tutor is available in the lab for tutorial help in both problems and computer assignments. The Accounting lab is located in Room 8-209 and the phone number is 738-4247. Lab hours are:

Monday-Thursday	8:00 am to noon
Monday-Thursday	4:00 pm to 6:30 pm

- all beepers and phones must be mute during instruction
