ASSIGNMENTS:

This course will require at least 8 hours of preparation time per week. Time management is essential. You cannot afford to fall behind in assignments; catching up is extremely difficult. I do place deadlines on online materials to help keep you on track. If you find that you cannot master the material in this amount of time, go to the accounting lab immediately for help on how to study more efficiently. Just doing your homework in the lab can be a time saver in that you may ask questions when you are stuck. If you would like to attend my traditional class it meets MW 7:55-10 in room 8211. You are always welcome.

Narrated lectures are on Connect in "library" and I will add additional ones or handouts on chapters where I think it might be useful. You can find the narrated lectures in "Student Library". Although only selected exercises

and problems have been assigned, you should work as many additional exercises and problems as you can. Solutions for extra problems are on the instructor's website. The password is **ACTG131**

Although I am not grading your homework, it is very important that you do the assignments. Connect will allow you to see the results of your work with detailed solutions. Read each chapter and review the questions before proceeding to the homework. If you feel uncertain about how to do an assignment, you can look at the illustrations in the chapter and follow the format, check solutions to problems not assigned, ask for help in the accounting lab.

The Accounting Lab David Hall is the lab tutor.

Success in this accounting course is dependent upon regular participation, and the completion of assigned homework. Although this is an online class, you are welcome to use the accounting lab for working on assignments or getting tutorial help whenever the lab is open.

The accounting lab contains computers for your use. An accounting tutor is available in the lab for tutorial help in both problems and computer assignments. The Accounting lab is located in Room 8-209 and the phone number is 738-4247. Lab hours are:

Monday-Thursday	8:00 am to noon
Monday-Thursday	4:00 pm to 6:30 pm
