Problem Solving

You were assigned three problems to solve during the first unit. Please consider your work and reflect on your results below.

**Curiosity, Gratitude, Grit, Optimism, Self Control, Social Intelligence, Zest**

⇒ Of the qualities listed, which one do you feel was best reflected in your efforts to solve these problems? Try to include specific examples of how you modeled this quality.

⇒ Of the qualities listed, which one do you feel should be better reflected in your efforts to solve problems? Try to identify specific areas where you could better use this quality. Describe some concrete ways in which you might develop this aspect of your problem solving.
