Accounting Pre-Tests and Post-Tests

Every accounting student is required to take a Pre-Test at the beginning of the semester for each accounting course in which they are enrolled and a Post-Test at the end of each course in which they are enrolled.

The tests will take less than five minutes each to complete and will not require a calculator. Please take the Pre-tests during the first few days of classes and take the Post-tests during the final week of each class.

Why does the Accounting Department have Pre-Tests and Post-Tests?

- The college is required to measure student learning. The Accounting department measures student learning by asking students to complete a Pre-Test and a Post-Test in each course.
- The results of these tests will be used to measure the level of knowledge of the entire class at the beginning and end of the semester. The faculty will use this information to improve student learning in the future.
- The results of this test will not be included in your grade for the semester. Your name will not be recorded and the test results will not be sent to your professor.
- Please complete this test under exam conditions. You must complete all work by yourself and without help from a textbook.
- If you do not know how to solve the problem please select answer “E,” "I do not know the answer to this question.” If you guess and happen to get the right answer our assessment of student knowledge will not be correct.

To take the Pre-tests and Post-tests, please follow the directions below:
